4. ¹¹GUIDLINES FOR FIXATION OF PAY OF THE ACADEMIC STAFF AS PRESCRIBED BY THE UGC AND FOLLOWED BY THE UNIVERSITY.

1. Universities are free to give upto five advance increments on the minimum of the scale to each category of staff with the approval of appropriate authorities of the University subject to the condition that the expenditure is met from within the sanctioned block grant or development grants to which cost of such staff is debited and such cases need not be referred to the University Grants Commission but if it is proposed to give a higher start to a person than stated above the matter is to be referred to the UGC giving full justification for the proposal and the approval of the University Grants Commission obtained before appointing the person.
2. In cases where a person appointed in the University was previously in employment in another University and if the pay to be allowed in the University is at the stage next higher to the pay last drawn by him in his previous employment, the University may give such number of advance increments as to give him the initial pay at the stage next higher to the last pay drawn by him without referring the matter to the University Grants Commission.
3. Exceptional and rare cases where a person is to be granted a salary more than the next higher stage over the last pay drawn by him and if the number of advance increments to be allowed over the minimum of the time scale exceeds five, the University may seek prior concurrence of the Commission indicating in detail the special circumstances justifying a relaxation of prescribed guidelines. The special provisions applicable to persons previously in employment in another University are not applicable to cases of persons previously in employment in foreign universities. In such cases if the number of advance increment exceeds five, a reference is to be made to the Commission with full details.

In the case of Central Universities a person joining from one Central University to another Central University in the same pay scale, he carries with him the pay last drawn by him and also the date of increment. The same is the position of staff joining Central Universities from Delhi Colleges.

Since every appointment in the University's academic post is done on the basis of open selection and there being no reserved quota for internal candidates, all persons whether working in the University or outside be considered on par for the purpose of fixation of their initial salary on an appointment to be made on the recommendations of the Selection Committee, subject to other existing provision in this regard.

The Universities may offer higher salary than that being drawn by him to a person moving from one Central University to another in the same scale in exceptional circumstances with the concurrence of the Commission, giving full justification for the same.

During the period of study leave/sabbatical leave spent abroad, the money received by the faculty members as fellowship/scholarship/grant/salary etc. if higher by 50% over the permissible per diem limit, only half the JNU salary will be paid.

Note: While regulating the salary of teachers during the period of his/her study leave/sabbatical leave etc. spent abroad, the net emoluments rather than the gross emoluments be taken into consideration and that the deduction made by the granting agency on account of tax as well as the payment made by the teacher on accommodation during the course of leave spent abroad, may be deducted from the gross emoluments while deciding the payment of JNU salary to him/her.

9. **19RULES GOVERNING THE PAYMENT OF SALARY AND ALLOWANCES DURING DUTY LEAVE PERIOD TO THE TEACHERS WHO ARE PERMITTED BY THE UNIVERSITY TO ACCEPT FELLOWSHIPS, ETC.**

Teachers on approved foreign visits and the issue of Jawaharlal Nehru University salary concepts:

- (a) The assumption is that the teacher has followed the prescribed procedures and that his foreign visit is approved by University authorities.
- (b) The question is: what salary, if any, should he receive from Jawaharlal Nehru University?
- (c) The need is for a formula that will be equitable and applicable to all.
- (d) The key criterion is the amount receivable by the teacher from the foreign institution extending invitation. The name given to the payment grant, fellowship, per diem, or salary - is an inappropriate and inapplicable criterion.
- (e) The principle suggested is parity with the per diem that will be admissible for a Government of India Grade I Officer while on travel in the country concerned.

THE FORMULA

- 1. Cases where the period of fellowship is treated as duty leave.

When a teacher is offered a grant or fellowship or other support for a foreign visit during the academic year, and if such visit is approved by Jawaharlal Nehru University authorities, the Jawaharlal Nehru University salary issue should be decided according to the following formula:

- (i) Where the amount payable to the teacher by the foreign inviting agency each month is equal to or less than the cumulative per diem allowable to a Grade I Officer on an Indian Mission or Indian Government Agency for travel in that country, the full Jawaharlal Nehru University salary may be paid to the teacher.

Example: Teacher A is authorized to go to Canada and is to receive \$ 450 per month from the Canadian Institution. The permissible per diem cumulated on a monthly basis for a Grade I Government of India Officer in Canada is, say, \$ 500. In this case, since what he receives will be less than the per diem, he should be paid his full Jawaharlal Nehru University salary and allowances.

¹⁹Approved vide Resolution No.31/EC/27.10.1975 & 6.17/EC/16.10.2003

(ii) Where the grant, fellowship, salary or other support, is an amount greater than the amount allowable as per diem for a Grade I Officer, the teacher may be paid Jawaharlal Nehru University salary minus the difference between his actual grant and the permissible per diem worked out on a monthly basis.

Example: Teacher B receives a grant of \$ 600 per month. In this case he gets \$ 100 or Rs. 750 per month more than the permissible per diem. If his Jawaharlal Nehru University salary, dearness and city compensatory allowances amount to Rs.1550/- he should be paid by Jawaharlal Nehru University Rs.800/- only.

(iii) Where a teacher gets a grant, fellowship or salary that is greater than the permissible per diem plus the Jawaharlal Nehru University salary, dearness allowance and city compensatory allowances, he shall not be paid any amount by the University.

Example: Teacher C receives a fellowship of \$ 1000 per month. This is \$500 or Rs. 3750/- more than the permissible per diem. If his Jawaharlal Nehru University salary plus dearness and city compensatory allowances is Rs.1950/ - he will be ineligible to receive any amount from JNU.

(iv) In the above cases, the teacher may be paid the normal house rent allowance he was in receipt of before accepting the fellowship, if he continues to incur the expenditure. If a teacher is in occupation of a house leased by the University, he can, if he so chooses, retain the accommodation during the period of fellowship subject to the usual recovery towards house rent.

(v) A teacher who receives a fellowship or grant or other support tenable exclusively during the summer vacation period and whose travel is approved by the Jawaharlal Nehru University authorities, may be sanctioned his salary and allowances in full.

(vi) ¹⁷Notwithstanding what is contained in the foregoing clauses, in cases of hardship, the Vice-Chancellor may, at his discretion, permit a member of the faculty who has been allowed to accept an outside academic/research assignment with a grant/ fellowship/salary or other financial support to draw full or part salary with or without allowances during the period of his/her assignment depending on the merits of each case.

2. Cases where the period of fellowship is not treated as duty leave.

When the period of fellowship is not treated as duty leave and the teacher proceeds on leave, the amount of leave salary and allowances to be paid may also be decided by the Vice-Chancellor following the above criteria.

Note: The grant of dearness and other allowances during the period of study leave will be governed by the study leave rules.

²⁰The Executive Council at its meeting held on 16.10.2003 has noted that the per diem entitlement is hardly sufficient for the teachers to pull along while abroad for participation in the International Conferences/Seminars etc. the Executive Council, therefore approved the following:

- i. The pay of a faculty member granted duty leave for participation in International Conference/Seminars etc. should not be regulated and full University pay as he/she may have been drawing before proceeding on duty leave must be paid during the duty leave period.
- ii. During the period of study leave/sabbatical leave spent abroad, the money received by the faculty member as fellowship/scholarship/grant/salary etc., if higher by 50% over the permissible per diem limit, only half the JNU salary will be paid, and
- iii. If the money received by the faculty member at (ii) above is higher by 100% over the permissible per diem limit, the University salary will not be paid.

* The Executive Council at its meeting held on 10.05.2013 has decided as under:

- (a) During the period of Earned Leave spent abroad, the money received by the faculty member as fellowship/scholarship/grant/salary etc. if higher by 50% over the permissible per diem limit, only half the JNU salary will be paid. However, the faculty member will have the option to avail either Earned Leave or HPL. In case the fellowship is availed during Half Pay Leave and the money received is higher by 50% over the permissible per diem limit, no recovery from salary shall be made.
- (b) If the money received by the faculty member is higher by 100% over the permissible per diem limit, during Earned Leave and Half Pay Leave, the University salary will not be paid.

13(a) ²⁹**REVISED GUIDELINES FOR CHAIR PROFESSORS.**

- i) All the Chairs to be operated only on a tenure basis for a tenure not exceeding two years; in exceptional cases subject to availability of funds, the term could be extended up to five years.
- ii) All liabilities of the present incumbents appointed under Statute 27 and 28 need to be met by the University; if the funds are not sufficient the faculty occupying the Chair can be treated as on lien to the Chair by holding their substantive university posts.
- iii) Funding agencies will be approached to enhance the endowment and the Memorandum of Understanding (MoU) need to be revised to explore the possibility of including the clause indicating periodical revision of the funds required for running the Chair.
- iv) In case of existing Chairs, the funding agencies will be informed of the above decision, after approval of the guidelines by the Executive Council of the University
- v) Resolved to refer the decision of the Executive Council taken on 5.11.1998 back to the EC of JNU for reconsideration as it is putting a lot of financial liability on the University in the absence of revised adequate matching grant provided by the funding agencies.
- vi) The cases of chairs where funding is not being received from the concerned Foundations/Agencies need to be seriously looked at and the foundations/agencies must be approached to release the required grant failing this appointments on such Chairs may be discontinued till financial matters are sorted out.
 - *1 It was further decided that, (i) Chair Professors appointed under donor grant where the grant covers existing and future commitments in terms of salaries, payment to researchers, etc. When this future commitment is clearly specified, the faculty appointed would be like any regular faculty and be entitled to CGHS/medical reimbursement/accommodation, etc. as per any regular faculty. 1. While it reiterates that actual processes of evaluation are outside the purview of the students participation and that the teacher giving the course should evaluate the performance of the student in it, it was, however, felt that in order to develop healthy student faculty relations it would be desirable to formalize the channels for redressal of academic grievances of students, if any.

6. On receipt of the application in the prescribed form alongwith requisite fee, the Head of the Centre shall refer the case alongwith relevant papers and together with the scripts of all the candidates who have taken the course to a committee of faculty members of the Centre not exceeding three in each case for their consideration and review;
7. No appeal shall lie against the revised grade arrived at through review;
8. In addition the Committee recommends that each Centre/School should have a Screening Committee for each programme of study consisting of faculty members not exceeding three who would ensure that examination schedule is maintained, the evaluation is completed within the time schedule and scrutiny of overall results of the programme of study.

Note: *Notwithstanding what is contained in these rules, the question of interpretation, if any, of a Statute, Ordinances and/or Rules will be ordinarily referred to the appropriate body of the University for consideration.*

M8. ⁹³NORMS GOVERNING THE RECOGNITION OF INSTITUTIONS BY THE JAWAHARLAL NEHRU UNIVERSITY

The Committee discussed the broad principles of recognition in the light of Statutes of the University as defined in the first schedule to the Act of the Jawaharlal Nehru University. It was generally of the view that recognition of institutions by the JNU should proceed with caution and should be in conformity with the objectives laid down for the University. The number of the recognized institutions should not be too large and too heteronymous in character as to hinder reciprocal interaction and benefits that the University Centres would enjoy in relation to the recognized institutions.

A balance in this respect may be maintained both in terms of the number of the institutions to be recognized and the academic pursuits of these institutions.

The Committee suggests the following norms for recognition of institutions:

- (i) The academic/research programmes of the institution seeking recognition should be in an area compatible with the academic and research programmes of the University/Schools/Centres, and it should be engaged in high standard academic pursuits in innovative and interdisciplinary areas. The programmes of the institutions should be of relevance to similar objectives already being pursued in the University/Schools/Centres so that reciprocal benefits might accrue and the institution might get linked with the academic pursuits of the University.
- (ii) The institution should have staff of high academic competence or have a system by which people of eminence could be associated with its academic programmes. The academic level of the staff, therefore, should be comparable to that of the University.
- (iii) The institution should have sufficient funds to support its academic activities and well-equipped departments/ library/laboratories.
- (iv) Institutions seeking recognition from relatively less developed areas/regions of the country but having necessary potential to come up in some way to the desired level of the academic and research programmes of the University not usually covered by the Universities in the region be given adequate consideration within the framework of the criteria laid down by the University for according recognition to the institutions.

⁹³Approved vide Resolution No.5.4/EC/12.7.1979.

- v) The proposal for recognition of institution should be first screened and processed at the School level preferably by the Board of the School before being brought to the Academic Council for its consideration and recommendations. and
- vi) If the Academic Council considers the proposal a viable one, it may refer it to a committee appointed by the Academic Council to go into all related aspects of the proposal in the light of the norms laid down by the university and for making its recommendations to the Council for latter's consideration and decision.

**M 13. SETTING UP OF AN INTELLECTUAL PROPERTY MANAGEMENT CELL
IN THE UNIVERSITY**

The Executive Council at its meeting held on 29.4.2006¹⁰⁰ has approved the setting up of an Intellectual Property Management (IPM) cell in the University as given in the Annexure.

The Executive Council also encouraged the University to look into possibilities of small entrepreneurship.

¹⁰⁰ Approved vide Resol. No. 6.8/EC/29.11.2006

INTELLECTUAL PROPERTY MANAGEMENT CELL

I. INTRODUCTION

For years, Jawaharlal Nehru University has been at the forefront of discovery and dissemination of new knowledge. Although some of this knowledge has led to new products and services for public use and benefits, historically, the University had little involvement in the commercialization of its research. This was in accordance with the traditional concept that the University has a threefold mission.

1. The teaching of existing knowledge in the lecture room and laboratory.
2. The creation of new knowledge through research; and
3. Dissemination of new knowledge through research publications.

Considering the new intellectual property regime, applicable from January 2005, JNU must take the initiative to promote inventions and innovations, and facilitate protection of Intellectual Property (IP) it generates. Therefore, it is proposed that an Intellectual Property Management (IPM) cell be established. The primary goal of the University's IPM cell would be to ensure effective IP protection and then transfer of JNU's inventions and innovations to the third party where these discoveries can be developed into technologies useful for the society.

II. MISSION STATEMENT

The IPM cell of JNU will further the academic mission of the University by facilitating the advancement of its inventions/innovations for the public benefit by:

1. Creating awareness about intellectual property rights among the students and faculty members.
2. Updating the knowledge on IPR/copyright.
3. Encouraging the disclosure of new ideas and discoveries for the purpose of filing patents.
4. Managing the University's intellectual property.
5. Enabling technology development and industrial application through licensing at maximum equitable return.
6. Promoting entrepreneurial activities within the University community.

III. INTELLECTUAL PROPERTY MANAGEMENT CELL

A. Responsibility

The IPM cell will assist the University to manage its intellectual property (IP) provide services for IP patenting, copyright and licensing to all Schools/Centres of the University. IPM cell will assist the University, to file patent applications in India/abroad and execute other documents; execute license, and material transfer agreements; enter into confidentiality and non-disclosure agreements, and execute other documents related to intellectual property and confidentiality/non-disclosure agreement. The IPM cell will handle IPR related issues such as copyright for publications, software etc. The cell will also assist the investigators on technology mapping/technology scanning of important projects being undertaken.

From time-to-time IPM cell may organize seminars and presentations to expose participants to the basic concept of IPM and its strategic role in Indian context through interactions with experts.

B. Organization

IPM cell will have the following organizational structure to begin with:

1. A Professor incharge (honorary), who has experience in filling and processing patent applications in India and abroad and transfer of technology to third party/parties.
2. A scientist at the Assistant Professor's level to oversee day-to-day operation of IPM Cell.
3. One secretary or IPM Associate.
4. A panel of patent attorneys who will work as consultants both for legal and financial matters.

C. Financial Support

Financial resources needed to establish IPM cell would initially be provided out of the funds granted under the University with Potential for Excellence Scheme or out of the funds which may be sanctioned by University Grants Commission in future Five Year Plans. Additionally, the patent filing costs could be met from any of the following sources.

1. IPM Cell's resources
2. Paid by the inventor through project grants*
3. Through external agencies like NRDC, TIFAC, BCIL, etc.

*Some of the funding agencies sanction grants only on the condition that the technology developed as a result of the project funded by them will belong to them. In that case the inventor has to follow the conditions laid down by the funding agency.

IV. BENEFIT SHARING

Universities the world over have acknowledged the claims of academic creators to have some share in the income derived from the technology transfer. The revenue received as a result of patents in the form of cash royalties and/or equity shall be distributed in such a manner as to encourage technology development and its transfer.

Proposed Benefit Sharing - The benefits received by the University on account of technology transfer in a year shall be shared between inventor's team and the University as per Resolution No. 6.17 of EC meeting held on 16.10.2003 {Notification No. Acad.II/U/13(7) dated 10.02.2004} in the following manner:

(i)	Money received upto 30% of the Gross salary (basic+DA+CCA)	No sharing
(ii)	Money received beyond 30% and Upto the gross salary	70:30 between the inventor's team and the University
(iii)	Money received beyond gross salary	50:50 between the inventor's team and the University

V. CONFLICT OF INTEREST AND ITS SETTLEMENT

If an inventor has a grievance about the University's handling of intellectual property, he/she can take the benefit of the Grievance Redressal Mechanism already existed in the University.

M24 ¹⁰³ REMEDIAL MEASURES TO PLUG THE LOOPHOLES AND LAXITY IN MALPRACTICE

1. The Adversarial system assigning students to members of the faculty needs to be put into effect and strengthened;
2. That students and teachers should meet as often as possible through seminars, tutorials, etc., so that the identity of students should not remain under a cloud. Indeed malpractices can be detected only at the level of the Centre which is the basic unit in constant contact with students;
3. That there should be effective coordination between Schools/Centres and the Hostel Administration. There should not be any let up or delay in providing information pertaining to students by the School/Centre as delay results in providing protection to students who are prone to misuse hostel facilities;
4. That the Wardens should devise programmes to ensure increasing personal contacts with the students living in the hostels through appropriate forms of interaction so that they might get to know each other individually;
5. That the office of the Administrative Officer of each School should prepare a handout or checklist for verification of particulars of students by the Centre before allowing them to attend classes;
6. That the Admission Branch should plug whatever loopholes there may be in the system. To ensure effective monitoring, it is suggested that the Admission Branch should provide the basic document to Schools only after proper verification so that it may be used as the authoritative source of all relevant information for extending facilities to students in all branches of the University;
7. That three copies of the Admission Folio should, after thorough verification of all certificates and comparison with application forms with embossed photographs duly signed by the DR(Admissions), be deemed to constitute the basic document. One copy of the Folio should be sent to the School/Centre for registration on the same day. The second should go to the Inter-Hall Administration; and both copies should be sent only through the office, i.e. without involving the candidates. Candidates seeking registration should be supplied with the third copy. Registration should be allowed only on the basis of the basic document by the School/Centre;

¹⁰³ Approved vide Resol. No.8/AC(B)/27.9.1993.

8. That rooms in the hostel should be allotted only after ensuring the identity of the students concerned by scrutinizing the Folio received in their physical presence. The enrolment forms of the students should also have the embossed-photographs duly signed by the DR(Admission) for verification of the identity of the student by the Evaluation Branch at any stage of extending facilities.

M26. ¹¹¹PROCEDURE REGARDING PAYMENT OF PROVIDENT FUND (EMPLOYER'S CONTRIBUTION) AND LEAVE SALARY CONTRIBUTION FOR THE PERIOD AN EMPLOYEE RETAINS LIEN ON THE POST HELD BY HIM AT THE TIME OF JOINING THE UNIVERSITY

The Executive Council at its meeting held on 13.04.1977 has approved the following procedure for undertaking the liability of defraying leave salary and Contributory Provident Fund/Pension Contributions on behalf of the employees who join the University on deputation/lien.

I. That in the case of a person coming from another institution or body, unless the previous employer as well as the University agree that the person will be on deputation on foreign service terms for a specified period, the person shall be treated as a fresh entrant to the University. In the case of deputation, the JNU will pay leave and pension contribution to the previous employer upto the date when deputation ceases. During this period the university will not be required to pay any further amounts by way of Contributory Provident Fund etc.

2. However, in the case of a person who is to be treated as a fresh entrant, the University will make its contribution to the Contributory Provident Fund with effect from the date the person joins the University but this contribution will be payable only if the entrant is absorbed in the service of the University or is in a tenure post. Similarly, if he opts for pensionary benefits the date of his joining the University will count provided he is confirmed after probation. The University will not make any payment to his previous employer for his leave or pension contribution or contributory provident fund.

M27. Procedure (1) processing the cases of visits abroad by the members of faculty for attending conferences/seminars/workshops etc.; and (2) for organizing international conferences/seminars etc.

The University is following the procedure as laid down by the Govt. in India, Ministry of Education and Social welfare, New Delhi as communicated to the University vide its letter D.O No. F.19-9/76-U.4(vol.V) dated 10.04.1978 which inter alia reads as under:

- (1) With the exception of cases mentioned in paras (3) and (4) below, teachers of Indian Universities/Colleges and other Higher educational institutions who desire to participate in international conferences, seminars, workshops, etc. may be given permission to attend the same by the Vice-Chancellors or Heads of the institutions as the case may be.
- (2) Similarly, proposals for undertaking higher studies/teaching assignments/research assistantship/visiting professorship abroad may also be cleared by the Vice-Chancellors or Heads of the institutions, as the case may be and need not be referred to this Ministry for prior clearance except in cases of appointment to institutions in Asian, Africa and Latin America countries for which Department of personnel, Government of India, may be approached directly.
- (3) Prior permission of the Ministry of Education will, however, continue to be necessary in the following cases:
 - i. Where the visit is under any of the Government of India sponsored schemes, or under the sponsorship of an autonomous organization set up; by the Government of India.
 - ii. Where an invitation is received directly by a teacher from a foreign Government or its Mission in India, however, where such an invitation is processed through the Ministry of External Affairs, reference to this Ministry would not be necessary.
 - iii. Where the visit is financed fully or partly by a foreign agency other than the host institution or organization.
- (4) Where a UN agency invites a person directly and offers payment of International Air passage and local hospitality, permission of the Ministry concerned with the UN Agency in question should be obtained.
- (5) As you are aware, the United States Educational Foundation in India is the approved channel for selection of all participants and for programmes organized by the East-West Centre, Hawaii. In a case in which invitation is received directly from the East-West Centre, Hawaii, a reference may be made to this Ministry for according permission.

- (6) The above procedure will not apply to invitations and visits in the fields of Agriculture and Health and family welfare. - (8) Teachers in Government Institutions will have to obtain prior approval of the appropriate authorities concerned.
- (9) In addition to the above, the Govt. of India may from time to time notify programmes for which prior clearance of the Government of India would be required.

It becomes very difficult for the University to process the requests when the same are not received in time and leads to embarrassment and inconvenience to all concerned.
