ABOUT THE CONFERENCE

The conference offers a shared platform for academia, industry and policy makers to explore how ideas, innovation and technology are redefining entrepreneurship in India and across the world. Entrepreneurship today takes many forms, from farm-based ventures and social enterprises to AI-driven startups and family businesses. The conference brings practitioners, researchers and students together to examine these multiple faces through the lenses of practice, research and global perspective. It also gives MBA and PhD scholars exposure to the latest national and international research.
